### Revenue

Revenue for the 3-month period ended 31 December 2015 ("3Q2016") decreased by approximately RMB 62.0 million or 62.3%, from RMB 99.4 million for the 3-month period ended 31 December 2014 ("3Q2015") to RMB 37.4 million in 3Q2016. The decrease in revenue during 3Q2016 was mainly attributed to the temporary stoppage of our production activities that was enforced by the authorities as an overall safety precaution for all manufactures in the Shandong Province due to an explosion at an unrelated boosters production plant in the province that occurred on 21 October 2015.

Our products can be categorised mainly into (a) explosive devices such as boosters, seismic charges and tube charges; (b) industrial fuse and initiating explosive devices such as detonating cords and non-electric tubes; (c) industrial detonators such as non-electric detonators and piston non-electric detonators; and (d) ammonium nitrate.

The breakdown and comparison of our revenue by the above product types and geographical segments between 3Q2016 and 3Q2015 and between 9-month period ended 31 December 2015 ("9M2016") and the 9-month period ended 31 December 2014 ("9M2015") are as follows:

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
  - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

**Revenue (cont'd)**

a) Sales within PRC

During 3Q2016, sales within PRC decreased by approximately RMB 33.5 million or 60.0% from RMB 55.9 million in 3Q2015 to RMB 22.4 million in 3Q2016. For 9M2016, sales within PRC decreased by approximately RMB 85.2 million or 43.9% from RMB 194.1 million in 9M2015 to RMB 108.9 million in 9M2016.

The decrease in sales within PRC was mainly attributed to the temporary stoppage of our production activities due to an explosion at an unrelated boosters production plant in Shandong Province during the current period under review.

b) Sales through export distributors

There were no export sales through export distributors during 3Q2016 and 9M2016.

c) Sales to Australia

During 3Q2016 and 9M2016, sales to Australia decreased by approximately RMB 12.8 million or 46.2% and RMB 19.2 million or 21.7%. The decline was mainly due to the temporary stoppage of our boosters production as a result of to an explosion at an unrelated boosters production plant in Shandong Province.

d) Sales to other countries

During 3Q2016 and 9M2016, sales to other countries decreased by approximately RMB 3.5 million or 96.0% and RMB 6.9 million or 59.7%, respectively.

The decline was attributed to the same reason that affected the Group's sales to Australia.

All domestic PRC sales contracts and export applications sought by export agents have been approved by the Ministry of Industry and Information Technology, Department of Work Safety ("MIIT").

**Gross profit margin**

During 3Q2016, the Group's gross profit margins dipped by 18.7 percentage points from 30.8% in 3Q2015 to 12.1% in 3Q2016. This was mainly due to the temporary stoppage of production activities during 3Q2016 as mentioned above.

During 9M2016, the Group's gross profit margin dipped by approximately 1.8 percentage points, from 31.2% in 9M2015 to 29.4% in 9M2016. Our gross profit margin was affected by the temporary stoppage of production activities during 3Q2016 as mentioned above. However, the impact was mitigated by the change in the Group's product sales mix as the sales of ammonium nitrate, which accounts for the lowest gross margin among the four product segments, had reduced significantly.

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
  - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

**Interest income / (Finance costs)**

For 3Q2016, interest income increased marginally by RMB 7,000 or 3.2%. For 9M2016, interest income decreased by approximately RMB 177,000 mainly due to lower bank interest rate during the current period under review.

For 3Q2016, finance costs increased marginally by RMB 73,000 or 4.3%. For 9M2016, finance costs decreased by approximately RMB 634,000 mainly due to lower bank lending rate during the current period under review.

**Other gains / (Other losses)**

For 3Q2016, other gains relate to reversal of allowance for impairment on trade receivables of RMB 127,000 and government grants of RMB 137,000. For 3Q2015, other gains relate to foreign exchange adjustment gains of RMB 302,000 and government grants of RMB 230,000.

For 9M2016, other gains relate to foreign exchange adjustment gain of RMB 366,000, government grants of RMB 654,000, and reversal of allowance for impairment on trade receivables of RMB 153,000. For 9M2015, other gains relate to foreign exchange adjustment gain of RMB 978,000, government grants of RMB 557,000, and reversal of allowance for impairment on trade receivables of RMB 3,000.

For 3Q2016, other losses relate to allowance for impairment on trade receivables of RMB 7.0 million, foreign exchange adjustment loss of RMB 165,000 and loss on disposal of property, plant and equipment of approximately RMB 9,000. For 9M2016, other losses relate to allowance for impairment on trade receivables of RMB 7.0 million and loss on disposal of property, plant and equipment of approximately RMB 28,000.

For 3Q2015 and 9M2015, other losses relate to allowance for impairment on trade receivables of RMB 4.8 million, inventories written-off of RMB 19,000 and property, plant and equipment written-off of RMB 41,000.

Foreign exchange adjustment gain/(losses) arose mainly from foreign exchange rate fluctuation among Renminbi (RMB), United States Dollar (US\$) and Singapore Dollars (S\$). Government grants relate to a grant for certain plant and equipment which will be amortised over 3 years and other ad hoc government grants for various purposes including safety awareness.

Allowance for impairment on trade receivables was based on the management's assessment on the Group's individual trade receivable as at the end of the period under review, in accordance to Singapore Financial Reporting Standards. The increment from RMB 4.8 million for 9M2015 to RMB 7.0 million for 9M2016 was due to the impairment on those individual long outstanding and slow-moving trade receivables during the assessment as at 31 December 2015, which was attributed to the slowdown in China's economic growth and directly impacting the coal and iron-ore mining industries.

A review on the inventories and property, plant and equipment was carried out as of 31 December and items of obsolescence were written-off or disposed-off accordingly.

**Operating expenses**

Corresponding to lower revenue registered in 3Q2016 and 9M2016, the Group's distribution costs decreased by approximately 46.2% and 34.2%, respectively. Administrative expenses also declined by approximately 4.0% and 6.8% for 3Q2016 and 9M2016, respectively. During 9M2016, amortisation expenses decreased by approximately RMB 637,000 due to amortisation charges for intangible assets during 9M2015. Intangible assets were fully written-off as at 31 March 2015, hence there was no further amortisation charges during 9M2016.

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
  - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

#### **Income tax income / (expenses)**

During 3Q2016, the Group registered a loss before income tax of RMB 18.1 million and hence there was a current tax income of approximately RMB 1.4 million mainly due to the deferred tax assets recognized as a result of the loss by our subsidiary, Shandong Yinguang Technology Co., Ltd (“Yinguang Technology”) during 3Q2016. The income tax expense for 9M2016 of approximately RMB 5.7 million is mainly due to the profit before income tax recognized by Yinguang Technology during 9M2016.

#### **Statement of Financial Position**

Property, plant and equipment decreased by approximately RMB 9.3 million, mainly due to the depreciation charged for the current period under review of approximately RMB 14.7 million, which was partially offset by the acquisition of property, plant and equipment of approximately RMB 5.6 million.

Other assets, non-current relate to the Group's land use rights, which decreased by approximately RMB 2.2 million mainly due to the amortisation charges of approximately RMB 2.2 million recognized during the current period under review.

Deferred tax assets relate mainly to the deferred tax differences for the allowance for impairment on trade and other receivables, provision for safety expenses and deferred tax on tax losses incurred during 3Q2016.

Inventories, trade and other receivables, other assets and cash and cash equivalents, represented approximately 13.4%, 19.0%, 9.0% and 58.6% respectively of our total current assets as at 31 December 2015.

Inventories decreased by approximately RMB 22.9 million or 37.1% to RMB 38.9 million as at 31 December 2015, as compared to RMB 61.9 million as at 31 March 2015. The decrease was mainly due to the decrease in finished goods as a result of the temporary stoppage of production activities during 3Q2016 as mentioned above.

During the current quarter under review, trade and other receivables decreased by approximately RMB 31.7 million or 36.4% mainly due to the temporary stoppage of production activities during the current quarter under review, and the allowance for impairment on trade receivables of approximately RMB 7.0 million.

Other assets, current comprising the Group's prepayments, increased by approximately RMB 14.3 million or 120.0% to RMB 26.2 million as at 31 December 2015. The increment was mainly due to a prepayment for land use rights of approximately RMB 10.4 million relating to the new storage facility.

As at 31 December 2015, our current liabilities comprised of trade and other payables of approximately RMB 102.4 million, other current financial liabilities of approximately RMB 105.6 million and other liabilities of RMB 9.9 million. Non-current liabilities comprised of deferred tax liabilities of RMB 2.2 million.

Trade and other payables decreased by approximately RMB 12.9 million mainly due to the decrease in bills payables due of RMB 7.0 million and the temporary stoppage of production activities during the current quarter under review.

As at 31 December 2015, other current financial liabilities of RMB 105.6 million comprised of bank loans of RMB 97.4 million and a third party loan of RMB 8.2 million. The increment of RMB 22.0 million from RMB 83.7 million as at 31 March 2015 was mainly due to the additional bank loans obtained by the Group during 1Q2016 upon repayment of those loan amounts that were due before 31 March 2015. Adhering to the customary banking practices in the PRC, the Group's bank loans are for a period of one year or less.

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following :-**
- **any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
  - **any material factors that affected the cash flow, working capital, assets and liabilities of the group during the current financial period reported on. (Cont'd)**

**Statement of Financial Position (Cont'd)**

Other liabilities of RMB 9.9 million relate to the Group's provision for safety expenses and advances from customers.

Deferred tax liabilities of RMB 2.2 million relate mainly to the deferred tax difference upon the finalisation of the PPA exercise in relation to the acquisition of Hebei Yinguang in 2008 and the deferred tax liabilities for the withholding tax on dividend payable by our subsidiary in China.

**Cash flow**

For 3Q2016, the Group has net cash from operating activities of approximately RMB 24.9 million, net cash used in investing activities of approximately RMB 343,000 and net cash used in financing activities of approximately RMB 5.0 million.

For 9M2016, the Group has net cash from operating activities of approximately RMB 46.8 million, net cash used in investing activities of RMB 15.2 million and net cash from financing activities of approximately RMB 13.3 million.

The net cash from operating activities for 3Q2016 and 9M2016 was mainly due to trade receivables collections and lower inventories held on hand.

The net cash used in investing activities of approximately RMB 15.2 million during 9M2016 was mainly due to the acquisition of property, plant and equipment of approximately RMB 5.6 million and the prepayment for land use rights of approximately RMB 10.4 million, which was partially offset by the interest received and proceeds from the disposal of property, plant and equipment.

The net cash used in financing activities during 3Q2016 was due to the payment of interest of RMB 1.8 million. The net cash from financing activities during 9M2016 was mainly due to the net increase in bank loans by RMB 21.9 million, which was partially offset by the payment of dividends and interest expenses.

9. **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The current third quarter results for the 3-months period ended 31 December 2015 are in line with the Company's commentary as disclosed under paragraph 10 of the second quarter results announcement for the financial period ended 30 September 2015 and the Company's announcements made on 30 October 2015 and 3 December 2015.

10. **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

*Resumption of the production of commercial explosive products except for boosters*

Announcements issued by the Company on 30 October 2015 and 3 December 2015 highlighted an unrelated explosion incident at a booster production plant in Shandong Province, Linyi City, Pingyi County. As a precautionary measure, the authorities required all commercial explosives manufacturers in Shandong Province to temporarily cease all production of commercial explosive products for safety inspections and clearance by the relevant authorities. Subsequently, on 30 November 2015, the Group received a notification from the relevant authorities to resume production of our commercial explosives products, except for boosters production as this product category will require additional safety inspection and clearance by the relevant authorities before the resumption of production.

As of the date of this announcement, Yinguang Technology has yet to resume production of its booster products as we are awaiting for the relevant authorities to provide the clearance confirmation to resume production.

The management will continue to follow up with the relevant authorities in order to resume production and we will update Shareholders of any other material impact to the Group accordingly.

*Update on the ammonium nitrate production facilities*

In light of the weak market conditions for ammonium nitrate, this product segment is projected to continue to experience an operating loss.

The management will continue to monitor the situation and update Shareholders of any other material impact to the Group accordingly.

*China market updates*

China continues to experience a slowdown in its economic growth and the broad-based weakness in global commodity prices continues to impact mining activities in China. In addition, as pollution and environmental issues remain key issues in China, the Chinese authorities have increased their scrutiny and regulations on industrial activities (such as refinery and power plant facilities) that are major causes of such issues. As a result, these factors have led to reduced mining activities in China and will continue to affect our local sales in China as most of our commercial explosives products are used in mining related activities.

The management will continue to monitor the situation and update Shareholders of any other material impact to the Group accordingly.
